

Dear madame president,

I want to thank Dr. Tedros for his sincere speech yesterday, for true leadership in difficult times and reflecting on that sadly we are regularly confronted with the trehats ad consecvences and war.

Yet, konwing and believe that peace is a prerequisite for well-being.

Iceland supports the resolution (A75/A/CONF./6) on Health emergency in Ukraine supported by many coutries and continues to support every humanitarian aid to Ukarine and thouse who have been migrating due to the war.

Finanly, I want to thank the Organization for the documents prepared for this Assembly. I would especially like to mention the Intersectoral Global Action Plan on Epilepsy and Other Neurological Disorders for the years 2022–2031. That addresses everything that is important for people with neurological disorders, such as human rights, care, treatment and possible cures. With this roadmap we may see great progress in treatment and cure of neurological disorders within the next decade.

We look forward to participating in the discussions of the Assembly this week.

Committing and contributing towards a better health for all.
Thank you.
